 - Ken Platou – Administrator, Mercy Medical Center – Mt. Shasta
 - Brenda Duchi – Retired, Community Member – Weed
 - Jonathan Andrus – Administrator, Fairchild Medical Center – Yreka
 - Robin Styres – Roseburg Forest Products – Weed

Motion was made (Taforo / Dixon) to approve the slate of candidates for new Board membership. Motion passed.

- b) Board members were asked to recommend individuals for Foundation Board membership to the Nominating Committee. Recommendations included:
 - Keith Cool – Owner, Mt. Shasta Supermarket – Mt. Shasta

A lengthy discussion by the Board was held to determine what characteristics are most desirable in prospective members. It's most important to have a "working" board rather than a large board. President Cook said he feels it is important to also consider individuals for committee membership separately from board membership.

Item 7:

Foundation Strategic Plan

The Board reviewed the November 14, 2009 Retreat. Lots of suggestions and great ideas for the future were identified. Four areas of priority were identified: Board Development, Public/Community Relations, Short Term Fund Development, and Long Term Fund Development. Ms. Suvia said she would discuss the comments further with the Executive Committee and the Strategic Plan would be updated once the goals for the next year are reviewed. No immediate action is needed at this time.

Item 8:

Fund Development

- a) ***Short Term*** – Mr. Roselli reported the Short Term Fund Development Committee has been working to identify different funding sources or populations and the best method for encouraging financial support of the Rural Health Sciences Endowment. The campaign just began its' fourth year and Mr. Roselli said he hopes to finish early. Mr. Roselli also reported he contacted the Pacific Power Foundation to discuss grant funding opportunities and learned they would not be interested in funding an endowment but might consider funding a specific project in the future.
- b) ***Long Term (a.k.a Business Development)*** – Mr. Messer distributed to the Board a handout detailing the work of the Business Development Committee (BDC). The BDC was established to provide a long-term revenue stream for the Foundation and has created five *Ad Hoc* sub-committees. Each sub-committee will be working on one of the following focus areas: Donations, Grants, Enterprise Startups, Fiscal Sponsorships, and Investments. In addition to the sub-committees, the BDC is establishing a network of advisors that have knowledge and expertise in each of the focus areas.

Priority is being given to an Enterprise Startup that will take over the management of the Community Education courses from the College, and re-organization and expanding the management of the College's Fiscal Sponsorships. Cost benefit analysis are being done on both of these projects in order to determine their feasibility and profitability.

Mr. Gross stated concern over how generating income would affect the Foundations non-profit and income reporting (IRS Form 990) status. He said he just received notification from the accountants how the new regulations for the 990 are applied and an income-based revenue program could have a significant impact on the reporting.

Mr. Messer said the BDC still has much work to do before any formal implementation or changes are made. The Committee is still in just a proposal phase. Mr. Taforo said this is a "major shift" for the Foundation and it is very exciting. President Lawrence reminded the Board the concept of Business Development was one of the many ideas discussed during the Retreat. It is no longer possible to rely on an income based solely on donations. President Cook asked if any other College Foundations are creating / establishing businesses such as the Foundation is considering. President Lawrence said there are several in California and all of the Washington State Community College Foundations are involved in Business Development.
