The Board is committed to assessing its own performance as a Board in order to identify its strengths and areas in which it may improve its functioning.

To that end, the Board has established the following processes:

- A committee of the Board shall be appointed in March of each year to determine the instrument or process to be used in Board self-evaluation. Any evaluation instrument shall incorporate criteria contained in these Board Policies regarding Board operations, as well as criteria defining Board effectiveness promulgated by recognized practitioners in the field.
- The process for evaluation shall be recommended to and approved by the Board.
- If an instrument is used, all Board members will be asked to complete the evaluation instrument and submit them to the Board Secretary. Additionally, representatives at the board table (the vice-presidents, senate presidents, and the President's direct reports) will be included in the Board's self-evaluation process and will be given a separate survey instrument.
- A summary of the evaluations will be presented and discussed at a Board session scheduled for that purpose. The results will be used to identify accomplishments in the past year and goals for the following year.
