COSGE - Associate Degree General Education Requirements 2023-2024

General Education (GE) Philosophy: As citizens of the world, our students will be confronting complex personal, social, cultural, and political issues. They will need to think critically, to communicate effectively, and to maintain their well-being. It is our belief that completion of the College of the Siskiyous' General Education requirements will help to prepare our graduates for life as informed, active, and ethical citizens of this multicultural world.

*Any course used to complete areas 1-5 must be a minimum of 3 semester or 4 quarter units. Courses that are listed in more than one area may only be used to satisfy one general education requirement. Courses on this list may also count towards their specific major. In addition to these general education requirements, students need to complete their major requirements and electives to reach the minimum of 60 associate degree-applicable units for a COS Associate Degree. **Students who wish to transfer should consult an advisor or counselor to plan the courses necessary to achieve their transfer goals.** Updates to COSGE are available on our website: <http://www.siskiyous.edu/counseling/advisingresources.htm>*
