

Paramedic Program Outcomes – College of the Siskiyous 600180

Accredited Paramedic Programs track and report outcome measures annually to the Committee on Accreditation for the Emergency Medical Services Professions.

The graduate success rate on the National Registry of EMT Paramedic Cognitive exam is 92.3% for the 2022 annual report year.

The most recent success rate for the National Registry of EMT Paramedic Psychomotor exam is 100%.

The positive placement rate for graduates is 92.3% for the 2022 annual report year. Positive placement is defined by the CoAEMSP as 'Employed full or part-time in a related field and/or continuing his/her education and/or serving in the military'. Positive placement is measured at completion of the program.

The program retention including the satellite for the 2022 annual report year was 73.6%.
