Banker Teller]

**1. Cashier:**

- Determines the need for a teller at the ATM, inputs 
  cash amounts to ATM, stops the ATM's daily report, 
  logs time to begin and end, and stops the bank's daily 
  report. 

**2. Teller:**

- Provides basic banking services, 
  handles customer transactions, 
  deposits and withdrawals, 
  closes accounts, and 
  assists customers with statements.

**3. Branch Manager:**

- Oversees the bank's daily operations, 
  supervises bank employees, 
  manages the bank's budget, 
  and handles customer complaints.

Bankers are responsible for ensuring the proper functioning of ATMs, maintaining the security of cash and 
valuables, and managing customer accounts. They are also responsible for complying with financial 
regulations and laws, and must be well-versed in financial transactions and 
accounting practices.
