1. Answer the following questions for the map shown below.

   First, which type of **scale** is shown on this map?

   Second, what is the approximate **distance** between cities A and B?

   Third, what is approximate **bearing** from city A to city B?

   Fourth, how is **geographic orientation** shown on this map?

   If the scale bar on this map is 1 cm long, what is the **RF** of the map?

   Again, if the scale bar is 1 cm long, what is the **verbal scale** of this map?

2. Consider the second map shown below. It depicts the same area as the one above but on a larger piece of paper. Which of these maps has the **larger scale**?
