

Banner Steering Committee

Meeting Notes
April 10, 2017
9:30am – 10:30am
DLC-4

Present: TJ Baugus, Josh Collins, David Gault, Kelly Groppi, Ben Harris, Eric Houck, Anne-Marie Kuhlemann, Scotty Thomason

Absent: Nancy Coughlin, Vickie Donaldson, Nancy Funk, Melissa Green, Kent Gross, Jan Harris, Doug Haugen, Nancy Miller, Theresa Richmond, Val Roberts, Bart Scott, Todd Scott, Meghan Witherell

Notetaking: Bethany Golly

- 1) **Meeting notes:** Notes from previous meeting were distributed, reviewed, and approved.
- 2) **Welcome TJ:** New employee previously employed by Ellucian. Very experienced with Banner, and was a very valuable resource at Ellucian before coming to COS.
- 3) **Cloud Migration Update:** Cloud migration is targeted to occur in the upcoming weekend, but may be delayed due to challenges with single sign-on. The cloud migration team has daily meetings and is making progress.
- 4) **Cloud Testing:** New Luminis 5 platform is now accessible to staff, and staff are encouraged to try out forms and functions in SSB to ensure everything is functioning properly. The new platform will be called *mySiskiyous*, and the *Navigator* branding will be phased out. Employee documents are currently located on the public website, and can be updated through Weblinks, but in the future, documents will be housed on Luminis (*mySiskiyous*).
- 5) **CISOA/ELIVE Reports:**

ELIVE – Ben went to Florida and received a lot of information, including some session guides that can be perused by each department; if there are subjects departments are interested in learning more about, there will be video presentations available in the future.

CISOA/3CBG – Very informative conference. Ellucian will not be supporting Oracle forms (pop-up windows) past December 2018. Moving forward, we must upgrade to Banner 9. Implementing Banner 9 will not require many modifications, will present many enhancements, and will have few issues or changes.
- 6) **Other:**
 - a) **Website Status:** The website has been migrated to the cloud, with very few changes: the Tech Helpdesk must now be accessed in a different manner; directory browsing is no longer usable; and the website cannot be changed by anyone but the Weblinks team.

Next meeting: *Thursday, May 11th, 2017 (2pm-3pm) - Boardroom*
