- 1) **Meeting notes:** Notes from previous meeting were distributed, reviewed, and approved. Discussion was had on cloud migration issues; most issues have been fixed, but some issues, such as some single sign-on functions and PERS/ STRS integration are still being worked on. IT suggests running tests for infrequent processes that are due to be used soon.
- 2) **Ellucian Analytics & ODS/EDW:** Ellucian offers a cloud-based dashboard analytics system, which gives functionality to look at higher-level trends. It is currently being evaluated to see whether it is better than operational data store or enterprise data warehouse. This would not replace Argos.
- 3) **On Demand Subscription Library (ODSL):** Ellucian also offers an online training library. COS has a subscription allowing access for as many users as we desire. Eric demonstrated how to access the courses online. It was noted that some courses refer to Banner 9, and while COS is still utilizing Banner 8, some courses can still be relevant and helpful.
- 4) **Credit vs. Non-Credit Student:** Tabled due to time.
- 5) **Other:** No other topics presented.

**Next meeting:** *Thursday, July 13, 2017 (10am-11am)*
