Independent Interdisciplinary Majors

02/26/08

SOU offers several established interdisciplinary majors, as well as the option to create an independent interdisciplinary major. Students may select from a list of established interdisciplinary majors, such as business-chemistry, business-mathematics, business-physics, environmental studies, human service, international studies, mathematics-computer science, and music-business.

Students may also propose independent interdisciplinary majors from two or more majors, programs, or schools. Independent interdisciplinary majors must be planned with the assistance of a faculty advisor.

See the SOU catalog for more information.
