It is the policy of the Board of Trustees, in the spirit of collegial consultation, to ensure the District provides for timely communication between the Board of Trustees, administrators, faculty, staff, and students. Further, the Board of Trustees, while retaining ultimate authority as defined by federal and state law and local regulation, seeks to give reasonable consideration to the concerns and opinions of constituent groups at the campus level and to share information with these groups. The Board of Trustees delegates to the Superintendent/President responsibility and authority for developing policy recommendations for Board consideration and for implementation of Board decisions.

I. The decisions of the Board, acting as a unit, are binding as specified in statute.

II. Standing advisory groups to the Superintendent/President are established to provide Campus input to matters of campus concern prior to Board consideration. All constituent groups are represented in the advisory groups. Representatives to advisory groups will be appointed by the constituent groups.

III. Standing committees of each unit or area will be consulted as appropriate and an attempt to reach consensus will be made before advancing a recommendation to the Superintendent/President and then to the Board.

If agreement cannot be reached, existing policy will remain in effect unless continuing with such policy or action exposes the District to legal liability or causes substantial fiscal hardship. In cases where there is no existing policy, or in cases where the exposure to legal liability or substantial fiscal hardship requires existing policy to be changed, the Board of Trustees may act, after a good faith effort to reach agreement, only for compelling legal, fiscal, or organizational reasons.
