COS Speakers Series presents

The Art of Taxidermy

by Richard Giordanengo

Thursday, 18-Apr-2013 at 7:30PM in Life Science 9, Weed campus

Join us as we enjoy an evening with one of COS's best kept secrets—Richard Giordanengo. His wide range of interests in life, the pursuit of knowledge and the natural world make him well versed in subjects ranging from zoology to botany, and from hunting to—our upcoming evening's topic—taxidermy. Richard will discuss the origins of taxidermy and then share some of his personal insights into what transforms this traditional craft into an art.

“The Art of Taxidermy” is the sixth and final COS Speakers Series’ event of the 2012-2013 academic year. Presentations are held in Life Science Room 9 at 7:30 PM on the third Thursday of each month except for December and January. Talks for the 2013-2014 season will begin in September. Please see the Speakers Series website (www.siskiyous.edu/speakersseries/) for more information about our past presentations as well as what’s planned for the future.

Richard Giordanengo was born in Yreka, California and grew up learning about the outdoors in the mountains of Siskiyou County. Richard works full time at College of the Siskiyous, serving on the Weed campus as landscaper and armchair philosopher.
