- ERIC
- Health Source: Consumer Edition
- Health Source: Nursing Edition
- MAS Ultra
- MasterFILE Premier
- MEDLINE
- Military & Government Collection
- Newspaper Source Plus
- Primary Search
- Professional Development Collection
- Psychology & Behavioral Sciences Collection
- Regional Business News
- Religion & Philosophy Collection
- Student Research Center

How to provide a link to an EBSCO article
Go the Library’s databases page and open/log in to the database you want.
Find the article you want to share with your students; click on the article title in the search results to go to the “detailed record” for the article. (see below)
Click on Permalink in the Tools sidebar. (see below)
Copy the URL that appears in the Permalink box. This is the URL that you will share with your students. (see below)
Paste the URL into your class web page or into Etudes. Don’t forget to test the link from both on and off campus and make sure it works!
