

*College of the Siskiyous*  
**Guided Pathways**  
**Pillar 2 – Help Students Choose and Enter Their Pathway**

Wednesday, May 6, 2020

9-10am

Zoom

Meeting Notes

- Welcome; check in
- Notes from previous meeting to come
- Report from GP Steering Committee – *A MyPath demo was presented. This is an onboarding system provided to CCCs by the Chancellor’s Office. Colleges that have adopted MyPath have experiences increase in success rates (per the CCCCCO). Little IT support will be required, and it will be vetted with them. A Co-Chair is needed to replace Sunny, reviewed Vision draft*
- Report out from Focus groups
  - a. Recruitment/Outreach leaders – *focus has been on 8<sup>th</sup> Grade Day*
  - b. Enrollment/Enrollment Management leaders – *ideas for increasing retention and recruitment were discussed, videos to continue recruitment remotely are a possibility*
  - c. Career Exploration leaders – *need to survey faculty regarding what is happening in classes, add questions re: career guidance to SOAR, update counseling webpages with links, offer a GUID class during winter, have information in the Student Center, Christina is working with K-12 partners through Siskiyou Works. Committee said they don’t have reason to meet until data needs are determined from all Pillar 2. They are waiting to add SOAR questions until they know what /how to ask. Can get input from Siskiyou Works. Collect information when meeting with new students.*
  - d. Onboarding/Orientation leaders – *will work on MyPath implementation*
- What should this group be working on over summer? *Data collection; career exploration*
  - e. How we want to “map out” students’ experiences, and when – *suggested that we do it as an all campus event; some folks said we’ve done that before (several times in various formats)*
  - f. What are our data needs? *Find out how Nathan wants the questions. Some ideas for data are:*  
*How many people have changed majors, how often, and when?*

*How course mapping will affect full time versus part time students?*

*What is our yield rate from S# to enrollment? How does that compare to other institutions?*

- *Other - Ocolot (chat bot) idea shared. Interactive, FAQs possible*
- *Agenda items for next meeting –Invite Nathan to next meeting; google docs could assist with notes and shared comments (David Blink will make and send link)*
