Good morning Siskiyous!

Can you believe it? And just like that.....summer is almost over! 4-10 schedules end this week.

This week's updates

- **Enrollment Report:** Can be accessed [here](#).
- **Maintenance and Facilities Updates:** The Juniper Lodge front entrance walkway is being replaced today. There will be no access to Juniper through the front entrance until next week. The Maintenance shop roof recoat project begins today. We will notify everyone of the area closure before they begin the spray. Bat and bird mitigation is set to begin in the Gym on Tuesday July 29th. This will not interrupt programs being held inside. CLT logging will be complete with the tree removal project today. We will have the Dead crew come to campus and assist with low cutting stumps and general campus clean up. A Cut Above will be on campus grinding and removing stumps around the lodges and kitchen this week. NWADU will be finishing the sand volleyball courts this week. All of the equipment and padding has arrived. The landscaping project is set to begin on the Yreka campus. Also, C&R Combustion will be finishing the new boiler installation work this week.
- **Siskiyou Golden Fair:** The fair is scheduled next week: Wed. Aug 6 - Sunday Aug 10th. Sign up to represent College of the Siskiyous at the Fair! To volunteer, email pio@siskiyous.edu.
- **Short-Term Part-Time Executive Assistant II:** As a result of Debbie Cain's retirement, we have hired a short-term PT position to assist in the President's Office. Samantha Shannon is a COS Alum and comes to us with experience as a business owner and board member. Feel free to stop by the President's Office to welcome Samantha and say hello!
- **COS Soar & Explore:** Saturday, Aug 2 from 9a - 2p in the Quad. This event is a great way for students to get informed and start the semester strong! Breakfast and Lunch are provided. See attached flyer for more details.

Have a great week!
