Note below from 11/19/19 Curriculum Committee Meeting:
10. Clarity Question re: CSUGE and/or IGETC Approved Course for Area, but not COSGE –Dr. Greene
We accept the COSGE, IGETC, and CSU (the Senate voted on that in Spring 2018) for our local degrees so that you can interchange the General Education Patterns for our local degrees. For example, when we get a student who has a course that they completed that satisfies the CSUGE Science area (e.g. a science course like AG 1018) but is not on the COSGE, the transcript evaluator or counselor will accept that CSUGE or IGETC approved course for the COSGE if they choose to use the local COSGE pattern.
This is in effect for similar GE areas such as Natural Science, Arts/Humanities, Social/Behavioral Science, Mathematical Concepts/ Scientific Inquiry & Quantitative Reasoning, English/Written Communication, Critical Thinking, & Oral Communication (mutual areas on CSUGE/IGETC and COSGE).
Caveat-Area 5: Multicultural/Living Skills would be comparable to CSUGE Area E courses, but all other courses would need to go through the GE Faculty Review Process if needed (as described through the transcript evaluation process in Counseling Services).
