MINUTES

1. Action – Review Minutes from 11/30/16

It was MSP (Reynolds/Tischler) to approve the minutes from 11/30/16. All in favor.

2. Discussion – Implementation Plan

We need a plan to implement our master plan. Todd as used this form at other institutions and it has worked well. The plan for today is to fill in more blank spaces (see grid). Todd would like the Planning Committee to look at the last column and identify the oversight body or person. Todd and Chris will send an email before the break to the body/person to ask for data to fill in the grid. When data is received, Planning Committee will review. The grid will go to College Council when it is completed.

3. Other

- Chris met with Scotty and spoke with him about the issue with the governance structure. This will be looked into starting next semester.
- The January 10th Planning Committee will be canceled.

The meeting adjourned at 4:37 PM.
