- 1) **Review of past meeting minutes:** No changes requested.
- 2) **Web Mailers:** Web mailers are being flagged by the accessibility report. A solution is to go back to listing regular email addresses rather than providing web mailers. This will also involve getting rid of the associated web mailer email addresses. This project may be a lower priority due to the Presto Sports project taking priority.
- 3) **Accessibility Report:** Weblinks has started looking at the issues noted in the accessibility report and fixing issues. Some pages were flagged for reasons that didn't make sense; report may have been conducted before pages were converted to the new template. Many files were flagged, but it will be time-consuming to go through every file hosted on the website.
- 4) **Other:** Website Vision: Moving from a static website to a more dynamic website has already been in progress, and can be seen on the home page with the moving and changing slides.
