

Guided Pathways Pillar 4 Workgroup
“Ensure Learning”
September 3, 2019
11 am ESTC 113 Weed Campus
Meeting Notes

Agenda:

- 1) Introductions/Welcome
- 2) Design Principles Review
- 3) IT Resource Request to Steering Committee
- 4) Other?
- 5) Next Meetings

Meeting Notes:

- 2) After a productive discussion, the group resolved to set “student-centered” and “data-driven” as our two key themes for this year’s work. We also set as a goal to create by the end of May a set of metrics for evaluating student learning and success in their interactions with all aspects of the COS experience.
- 3) Wayne (IT Director) delivered a presentation on the proposal for a website overhaul that he and Nathan (Director of Research) will be taking to the Guided Pathways Steering Committee later this month that we will argue will advance the work of all four pillars.
- 4) To all those who missed this meeting, no worries! Our workgroup’s schedule starts out at a slower pace but will really pick up as the other pillar workgroups propose and implement strategies that we can evaluate and assess, so we will definitely need all hands on deck as we move further into the semester. Invites for future meetings will go out over the next day or so, and Nathan will work on finding a room for our Wednesday meetings (such as our next one on Wednesday, October 2nd) that will also allow Yreka to participate.
- 5) Next meetings:
 - a. Wednesday, October 2, 2019 (Cancelled)
 - b. Tuesday, November 5, 2019 3:30-4:30 pm ESTC 113
