SJEDI Corner

- **Nov. 20th was Transgender Day of Remembrance:** "For the second year in a row, the trans community has seen a grim milestone: 2021 has become the deadliest year on record, just as 2020 was. Each and every name read and recognized on the Trans Day of Remembrance represented a full, rich life that did not deserve to be cut short. The rhetoric and stigma aimed by anti-equality political leaders and public figures at transgender and non-binary people have led to an unprecedented level of horrific violence against our transgender community. We must fight for change. We must dismantle this stigma. We must bring this epidemic of violence to an end." - *Joni Madison, Interim President of the Human Rights Campaign*. Understanding what leads to violence against transgender and non-binary people will assist in taking action. Wishing you and your families a very happy Thanksgiving Holiday Break! Enjoy!
